	Terroir	Loess, Danube gravel, Gneis
Description	<p>Krems is not only the namesake of the most important wine town in Lower Austria, but also a classified village appellation and the centre of the Kremstal region. Hills shaped by loess characterize not only the landscape but also the wines, which are defined by an animating piquancy and juicy, elegant apple fruit.</p>	
	<p>2024 - charming wines with good ripeness and round acidity. The weather was very much influenced by climate change. The bud break happened at the End of March, a month earlier than average. The four frosty nights in the third week of April slowed growth, but also caused significant losses in volume. Consistently warm temperatures and a good water supply ensured rapid ripening. The harvest started at the End of August. In mid-September, huge amounts of rain interrupted the harvest, which ended at the beginning of October.</p>
